Ahmedabad, Gujarat

Career Objective

Enthusiastic and dedicated Frontend Developer with 1.2 years of professional experience crafting responsive and user-friendly web applications using React.JS, Next.JS, Vue.JS, and Sveltekit. Proficient in creating high-performance frontend solutions and integrating with backend systems. Seeking an opportunity to contribute to innovative web development projects and expand my skillset in a dynamic environment.

Skills

React.js Next.js JavaScript HTML CSS Tailwind CSS Bootstrap Vue.js Sveltekit ERPnext
PostgreSQL MongoDB Firebase

Experience

Frontend Developer

BuildnBoost

Jun, 2024 to Present

- Designed and developed responsive, user-friendly interfaces using modern frameworks.
- Collaborated with backend teams to integrate APIs and ensure seamless functionality.
- Optimized application performance and resolved UI issues for high-quality delivery.

Frontend Developer

TMedia Business Solution Pvt. Ltd.

Aug, 2022 to Apr, 2024

- Developed responsive web applications with HTML, CSS, JavaScript, React, Next.js, and SvelteKit.
- Integrated MySQL/PostgreSQL databases and APIs for seamless data management and communication.
- Utilized Git for version control and participated in Agile sprints for feature delivery and code reviews.

Projects

Cloud-Based Modbus Monitoring System Dashboard

Designed and developed an interactive real-time monitoring dashboard using Next.js, WebSockets, and PocketBase, featuring data visualization, performance metrics, interactive maps, analytics, and secure user authentication.

RVA (Rahasya Vedic Astrology)

<https://app.rahasyavedicastrology.com>

Developed the frontend of an astrology platform in Next.js, integrating personalized services like Horoscope Reading, Marriage Matching, and tools such as Janam Kundali, KP Horary Software, and advanced calculators

V-Verse – Digital Veterinary Platform

<https://v-verse-production.vercel.app/>

Designed V-Verse, a global platform for the veterinary community, featuring V-Jobs, V-Webinars, VV Profiles, and user-centric interfaces for consultations, e-commerce, and community tools across MENA and Africa.

JUX, OnlySpell, Lightning-Proxies

<https://onlyspell.vercel.app/>

Contributed to the design and development of Next.js-based projects, focusing on creating intuitive and visually appealing user interfaces to enhance user experience and functionality. [Lightning Proxies](#), [JUX](#)

Stocks Newsletter Platform

<https://stocks-newsletter-platform-frontend-shnt.onrender.com>

Developed a real-time stock tracking platform using Web Sockets for live market data. Designed interactive interfaces to display real-time quotes, industry-leading stock options, and performance insights with both numerical and visual feedback for portfolio management.

AGRONNECT

<https://github.com/Harshrajkotiya/Agronnect>

Developed a chat app for the agricultural community using Vue3.js, Laravel, and Pusher. Created responsive UI components and integrated Axios for frontend-backend communication.

Order Management System with ERPnext

<https://erpnext-156862-0.cloudclusters.net/app/>

Integrated ERPnext modules for centralized business management. Implemented Pipedrive API and Tally integration, enhancing functionality across buying, sales, and CRM.

INFICTION

<https://infiction.vercel.app/>

Developed InFiction, a platform for film producers and writers. Designed UI/UX, built APIs, integrated Stripe for payments, and deployed on AWS, enabling script submissions, reviews, ratings, and a marketplace.

Derivedged

<https://github.com/Harshrajkotiya/Red-Green>

Developed a real-time market sentiment portal using SvelteKit, FastAPI, and PostgreSQL. Implemented server-sent events for low-latency updates and deployed on Fly.io and DigitalOcean, delivering scalable, up-to-date analytics.

FreshBox

<https://freshbox-7a6ce.web.app/%23/login#/login>

FreshBox is a grocery ordering app with a recommendation engine for nutrition-balanced items based on cuisine and dietary preferences. I developed the front-end admin panel using HTML, CSS, and React, facilitating ERP management tasks.

Hostelhaze

<https://github.com/Harshrajkotiya/hostelhaze>

Hostel management system built with React JS and Firebase. Designed UI, managed database, and handled website hosting.

Education

Bachelor's Of Engineering in IT

Silver Oak University, Ahmedabad

Jul, 2021 to Jul, 2024

Diploma in IT

Lukhdhirji Engineering College, Morbi

Jul, 2018 to Jul, 2021
